

## CHARTCONNECT MEDMANAGER

### E- PRESCRIBING

*ChartConnect MedManager is available as an additional service through the OneHealthPort web site. You can access MedManager with the same OneHealthPort password you use to access health plan and provider sites.*

**ChartConnect MedManager** is a workflow solution for nurses and physicians to better manage their patients' medications and allergies. The online application allows providers or staff to quickly and easily prescribe and refill prescriptions using any pharmacy in the U.S., reducing errors, time and paperwork. MedManager helps enhance patient care by eliminating errors and identifying drug interactions before a prescription is submitted.

With MedManager, physicians and their staff can:

- Write prescriptions that can be electronically transmitted to the pharmacy of their choice.
- Single-click refill management (start, stop, modify, hold, or forward for authorization)
- Send pre-written refill requests to the physician for single-click authorization.
- Manage refill requests; and start, modify and stop medications from anywhere, anytime.
- Check our extensive brand name and generic formulary and create a customized formulary.
- Check a patient's medication profile for drug allergies before prescribing.
- Automatically keep patient medication list, drug history, refill history and drug-allergy tables up-to-date.
- Prior authorization (view payor rules: patient eligibility and formulary)
- Access medication history from payors (PBM) and pharmacies
- Allow other providers in the community to view individual patient medications and allergies (for ER, call sharing and consultations).
- Reduce phone calls, faxes, chart pulls, especially when combined with ChartConnect ResultManager.
- Upgrade to a full Electronic Medical Record at any time.

### TO REGISTER

Once your organization is registered for OneHealthPort, your OneHealthPort administrator may sign up for additional online services, including ChartConnect MedManager.

The OneHealthPort credential is free of charge to subscribers, but using ChartConnect's additional services requires a monthly subscription fee. To register for ChartConnect MedManager, read and complete the ChartConnect MedManager Subscription Agreement on the OneHealthPort web site at [www.onehealthport.com](http://www.onehealthport.com). Print the online form and send it, with payment enclosed, to ChartConnect. Fees and terms are detailed in the agreement.

For more information or a demo, contact ChartConnect by emailing [sales@chartconnect.com](mailto:sales@chartconnect.com) or calling (toll free) 877-567-6825 or 509-457-3004.

For more information on how to register your organization for OneHealthPort, go to [www.onehealthport.com](http://www.onehealthport.com).
