

Molina Healthcare is Moving to Availity Starting May 18

Get Access with Your Existing OneHealthPort Login

Availity is Molina Healthcare's (Molina) new Provider Portal. Starting **May 18, 2021**, OneHealthPort users can access Availity for Molina. You can continue to use your existing OneHealthPort Subscriber ID and password after you register with Availity.

If You're Registered with Availity

If you're already registered with Availity for another payer, you're all set. You can use your existing OneHealthPort Subscriber ID and password to get started with Molina on Availity.

When you log in using your OneHealthPort Subscriber ID and password, you'll have two options. You can access the new site through Availity by clicking the Molina logo and then selecting the Availity login. You'll also have access to the existing Molina Provider Portal through Molina's transition to Availity Portal.

If You're Not Registered with Availity

You first need to register with Availity for your OneHealthPort credentials to work. To make the transition easy, Molina and Availity have teamed up to offer a variety of training and information sessions. You can view a schedule of live webinars or watch a recording through the registration training link below. They have also created a dedicated resource to help you learn more about Molina's transition.

Seeking More Information or Availity Portal Training?
