

aUpdated: 06/15/20

Consensus Direction:

Follow coding guidelines of the health plans and submit the claim with the appropriate diagnosis after the testing has come back

- Diagnosis Code used should be consistent with <https://www.cdc.gov/nchs/data/icd/COVID-19-guidelines-final.pdf>
- Test code used should be consistent with Medicare Guidelines https://www.cms.gov/outreach-and-education/outreachffsprovpartprogprovider-partnership-email-archive/2020-04-07-mlnc-se#_Toc37139913. HCPS U0002 is for dates of service on or after February 4, 2020 and CPT 87635 for dates of service after March 13. HCPS U0003 and U0004 are for dates of service after April 14, 2020

As part of their adjudication process, *commercial* health plans will differentiate between the following two scenarios: 1) E&M visit is related to COVID/Diagnostic panel testing (patient cost share waived), and 2) E&M visit is related to COVID care once the testing is completed (patient cost share not waived).

NOTE: Though CMS has approved the use of ‘CS’ modifier to identify those services that should not have a member cost share (per CMS https://www.cms.gov/outreach-and-education/outreachffsprovpartprogprovider-partnership-email-archive/2020-04-07-mlnc-se#_Toc37139913), some but not all commercial health plans will recognize the ‘CS’ modifier in their adjudication processing.

Under the Emergency Order, some health plans will cover the entire cost, prior to deductible and with no patient cost share, of COVID testing (<https://www.cms.gov/files/document/cms-2020-01-r.pdf>), Diagnostic test panels for influenza A & B, norovirus and other coronaviruses, and respiratory syncytial virus (RSV) and, in the outpatient setting, the associated E&M visit.

In situations where the testing is billed by the lab and the E&M visit is billed by the provider, how should providers submit the claim with the E&M visit -- so that it is clear that E&M visit is to be covered under the Emergency Order (since the testing will be billed by the lab)?

		Use of 'CS' modifier is not applicable	
CHPW - Medicare Advantage	Yes 03/27/20	We expect the CR modifier, or one of the COVID diagnosis or related diagnosis put out by CDC	
Cigna	Yes 03/27/20	COVID response page – Under 'Interim Billing Guidelines' scroll to 'General billing guidance for COVID-19 related services' section.	
Coordinated Care - Commercial	Yes 03/27/20	For Apple Health - HCA COVID billing guidelines For Marketplace plan, for claim billed without the COVID-19 lab tests, screening related claims with diagnosis codes Z20.828 and Z03.818 will be covered with \$0 member liability.	Providers should bill the appropriate E/M code with the appropriate diagnosis codes including U07.1 and those found in the link attached.
First Choice (TPA and PPO)	Yes 03/27/20	When COVID-19 diagnosis code U07.1 is appropriately coded with an E&M code, this will indicate it is for COVID-19. If U07.1 is not effective or appropriate due to an initial visit, then refer to the recommended diagnosis coding from the CDC. Modifier CS will be considered in the adjudication of COVID-19 testing services with other claim information	
HCA – Apple Health	04/08/20	All services covered at 100% of the allowed and patient cannot be billed Use of 'CS' modifier is inappropriate as cost sharing is not applicable for Medicaid/MCO covered services'	

Under the Emergency Order, some health plans will cover the entire cost, prior to deductible and with no patient cost share, of COVID testing (<https://www.cms.gov/files/document/cms-2020-01-r.pdf>), Diagnostic test panels for influenza A & B, norovirus and other coronaviruses, and respiratory syncytial virus (RSV) and, in the outpatient setting, the associated E&M visit.

In situations where the testing is billed by the lab and the E&M visit is billed by the provider, how should providers submit the claim with the E&M visit -- so that it is clear that E&M visit is to be covered under the Emergency Order (since the testing will be billed by the lab)?
